

JUSTIFICATION FOR SOLE SOURCE / BRAND NAME SOLE SOURCE (Simplified Acquisitions < \$150K)

PLEASE CHECK ALL APPLICABLE BOXES AND FILL IN ALL APPLICABLE BLOCKS BELOW. A NARRATIVE MUST BE ADDED TO ALL APPLICABLE SECTIONS. CHECKING A BOX IS NOT SUFFICIENT.

Document Number:	N6588815RC60603	
The material and/or service listed on this form is (<i>please mark one</i>):	<input type="checkbox"/> Sole Source	<input checked="" type="checkbox"/> Brand Name Sole Source

Restricted to the following source or manufacturer:

- Manufacturer: **Verisurf Software Inc.**
- Manufacturer POC and Phone Number:
- Manufacturer Address: **4907 E. Landon Dr., Anaheim, CA 92807**
- Dealer POC and Phone Number (if applicable):
- Dealer Address (if applicable):

☒ Description of the item(s) or service(s) required and the estimated cost(s):

Item#	MFG Name	MFG Part#	Description	Qty	U/I	Unit Price	Ext Price
1	Verisurf Software Inc.		Verisurf 3D MEasurment Solutions	2	ea	\$20,000.00	\$40,000.00

*** If additional items are required, please provide on a separate spreadsheet

☐ Required Delivery Date (RDD) or Period of Performance (POP):

☒ Specific characteristics of the material or service that limit the availability to a sole source/brand product (unique features, function of the item, etc.). Describe in detail why only this source/brand can furnish the requirements to the exclusion of other sources/brands. **Verisurf 3D measurment software is currently used by FRCSW to analyze the geometry of critical flight components for the F/A-18 program. Verisurf supports multiple metrology applications, not just for lasert trackers, but for CMM arms as well. Currently the F/A-18 program uses Verisurf as the standard for analyzing structural aircraft components before they're removed from the aircraft and before new components are installed to ensure that they comply with original factory specifications.**

☐ The requested material or service represents the minimum requirements of the Government.

☒ The material or service must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect or interface with the existing system. **Verisurf is not compatible with other third party 3D measurment software. Because of this, all data that is currently stored by the F/A-18 Program would need to be converted to support the different software application. To accomplish this data must first be converted into a text file, and**

NAVSUP FLC San Diego Justification for Sole Source / Brand Name Sole Source (Simplified Acquisitions < \$150K (Revised March 2013))

then converted into the new application. Text files do not have the security features to protect the data from being corrupted prior to being converted so there is a chance that the data in new files could be corrupted. Although this tasking is not labor intensive, there is a risk to the integrity of the data which could impact flight worthiness of the aircraft.

Verisurf is also used on four seats at FRCSW continuing to use a single software application for all data, regardless of how it is captured, is more efficient. To add two more seats as requested under this RCP will cost the Government approximately \$40,000.00. To convert the first four seats and purchase two additional new seats with a comparable software application would cost the Government at least \$100,000.00 indirect costs, plus additional costs for training.

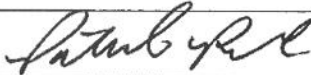

☐ A patent, copyright or proprietary data limits competition:

☒ The items are "direct replacement" parts/components for existing equipment. Provide the information about the Next Higher Assembly (NHA)/equipment which the replacement parts are going into (e.g. description, model, part number, Original Equipment Manufacturer (OEM), etc.). Verisurf is the software that is currently being used and is approved by NAVAIR under DADMS ID 74716.

☐ Other information to support sole source/brand name sole source procurement. The rationale must then justify "either" substantial duplication of cost to the Government that is not recovered through competition or unacceptable delays in fulfilling the mission of the agency.

TECHNICAL OR REQUIREMENTS CERTIFICATION

I CERTIFY THAT THE STATEMENTS CHECKED, AND INFORMATION PROVIDED ABOVE, ARE COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE SOURCE/BRAND NAME SOLE SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
